Dear Valued Client,

As I have stated in the past, the landscape of tax preparation is constantly changing due to continuing mandates, including due diligence, by our federal and state governments.

Effective with 2016 electronically filed returns, the Ohio Department of Taxation is mandating your driver's license number, issue date, and expiration date **MUST** be transmitted with the return to combat tax fraud.

If any person does not have a driver's license number (e.g., child or a person unable to drive), I will attempt to "work around" the issue or your Ohio return will have to be filed by paper.

If you have a scheduled tax appointment, please bring with you a photocopy of your driver's license to avoid a delay in completing the return or I can make a copy. Please remember to bring a copy of your spouses driver's license and/or child's, if applicable. If your return is dropped off or mailed, enclose a copy. Without this required information your 2016 return CANNOT be electronically filed.

Thank you,

Richard
